WORK EXPERIENCE

Project & Technical Lead | Broomsmith

September 2025 – Present

- Led development of a VR spellcasting and item-repair experience in Unreal Engine, overseeing Blueprint architecture, C++ systems, and Plastic SCM version control across a collaborative team; project was selected and presented at the Game Developers Conference (GDC).
- Engineered designer-friendly and modular functions/nodes in Unreal for ease of designer use and onboarding.
- Contributed to art direction by establishing visual consistency across in-world assets, collaborating on material design, and resolving 3D asset pipeline issues to maintain quality and stability throughout production.

Design & Technical Intern | Pixel Health Labs

June 2025 – August 2025

- Designed, developed, and implemented an Unreal Engine VR experience focusing on hospital architecture, collaborating closely with Perkins & Will architectural firm and a team of 5 design consultants.
- Implemented gesture recognition and hand tracking features to allow users the opportunity to interact with immersive virtual environments.
- Addressed and resolved important 3D Model errors, enhancing quality and stability in future products.
- Worked alongside Boston Children's Hospital to develop informative videos in Photoshop and After Effects for an executive sprint. It proved to boost attendee retention of crucial information and improved information communications.

Project Lead | SCADPro x Universal Creative

September 2024 – November 2024

- Lead and directed SCADPro's collaboration with the Universal Creative Team. Specific details are under non-disclosure agreements.
- Communicated directly with the Universal Creative Team, presented proposed content by my team, organized our team layout, and addressed team concerns.
- Utilized SCRUM while managing and bridging differences in creative understandings within a team of 20 designers, XR developers, and creative technologists.

ADDITIONAL EXPERIENCE

Music Entertainment | Connect Savannah

February 2024 – Present

- Singing and playing piano or ukulele for three to four-hour sets in downtown Savannah venues and restaurants. Three times per week.
- Organizing and setting up sound equipment and facilitating client details and preferences with the venues. Managing my own work schedule.
